DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 1 recites, inter alia, "comparison circuit will compare signals at a test side and at an interface side and send a comparison result to said determination circuit before said tester receives a tester start signal sent out by said prober, said determination circuit will determine whether the connection is correct according to the comparison result and then send a determination result to said control circuit, said control circuit will activate said protection circuit to interrupt said tester start signal according to the determination result if the connection is incorrect, hence disabling said test system."

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Ishitani et al. (U.S. 6,970,004) disclose a Apparatus for inspecting defects of devices and method of inspecting defects and Sakagawa et al. (U.S. 6,906,542) disclose a Probing method and prober , they do not disclose the above-mentioned limitations.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
